

## Whey Low Update

June 3, 2003

Dear Lee Zehner,

As President of VivaLac® Inc., I wanted to thank you personally for both your business and your support. Together, we are one step closer to making Whey Low (tm) a household name among health-conscious consumers, low-carb dieters, low-calorie dieters, and diabetics. I am pleased to announce that we now have customers in every US state and territory, in every Canadian province, and even abroad. Your enthusiasm for Whey Low has greatly contributed to this, and again I thank you.

Whether you are among the thousands of our existing customers or have just been recently introduced to the Whey Low family, welcome! We are extremely excited about our wide variety of Whey Low products, which are carefully formulated to fit your needs. Whey Low Granular (available in bags, canisters, and small packets) continues to be our largest selling product, but our Whey Low Gold (the best replacement for brown sugar in the world) is right behind. Type 1 and Type 2 diabetics are absolutely thrilled about Whey Low D, and, with summer fast approaching, Whey Low for Ice Cream and Whey Low Powder are wonderful assets in the kitchen.

Whatever your needs may be, I promise that VivaLac® Inc. will continue to deliver to you only the highest quality, best-tasting products in the world, all at affordable prices. VivaLac® continues to offer free shipping, regardless of order size. There is just a fixed \$5.95 handling charge per order. We will cover the rest.

We intend to initiate our quarterly Whey Low newsletter shortly. In each newsletter will be useful nutritional information, information about new and existing Whey Low products, as well as savings opportunities. The premier issue should arrive in your inbox in the next month or two.

If you haven't done so recently, please visit our website at [wheylow.com](http://wheylow.com) or feel free to call me toll-free at 1 888 639-8480 with your questions or suggestions. I look forward to hearing from you.

Best Regards,

Lee R. Zehner, Ph.D.  
VivaLac® Inc.
